

SOO 1003 / Wisconsin & Southern Railroad

Photo Special
November 9, 2008

Today's event will be more ad-hoc than the usual HTP event. The relatively short run and a smaller group give us the flexibility to "make it up as we go" today.

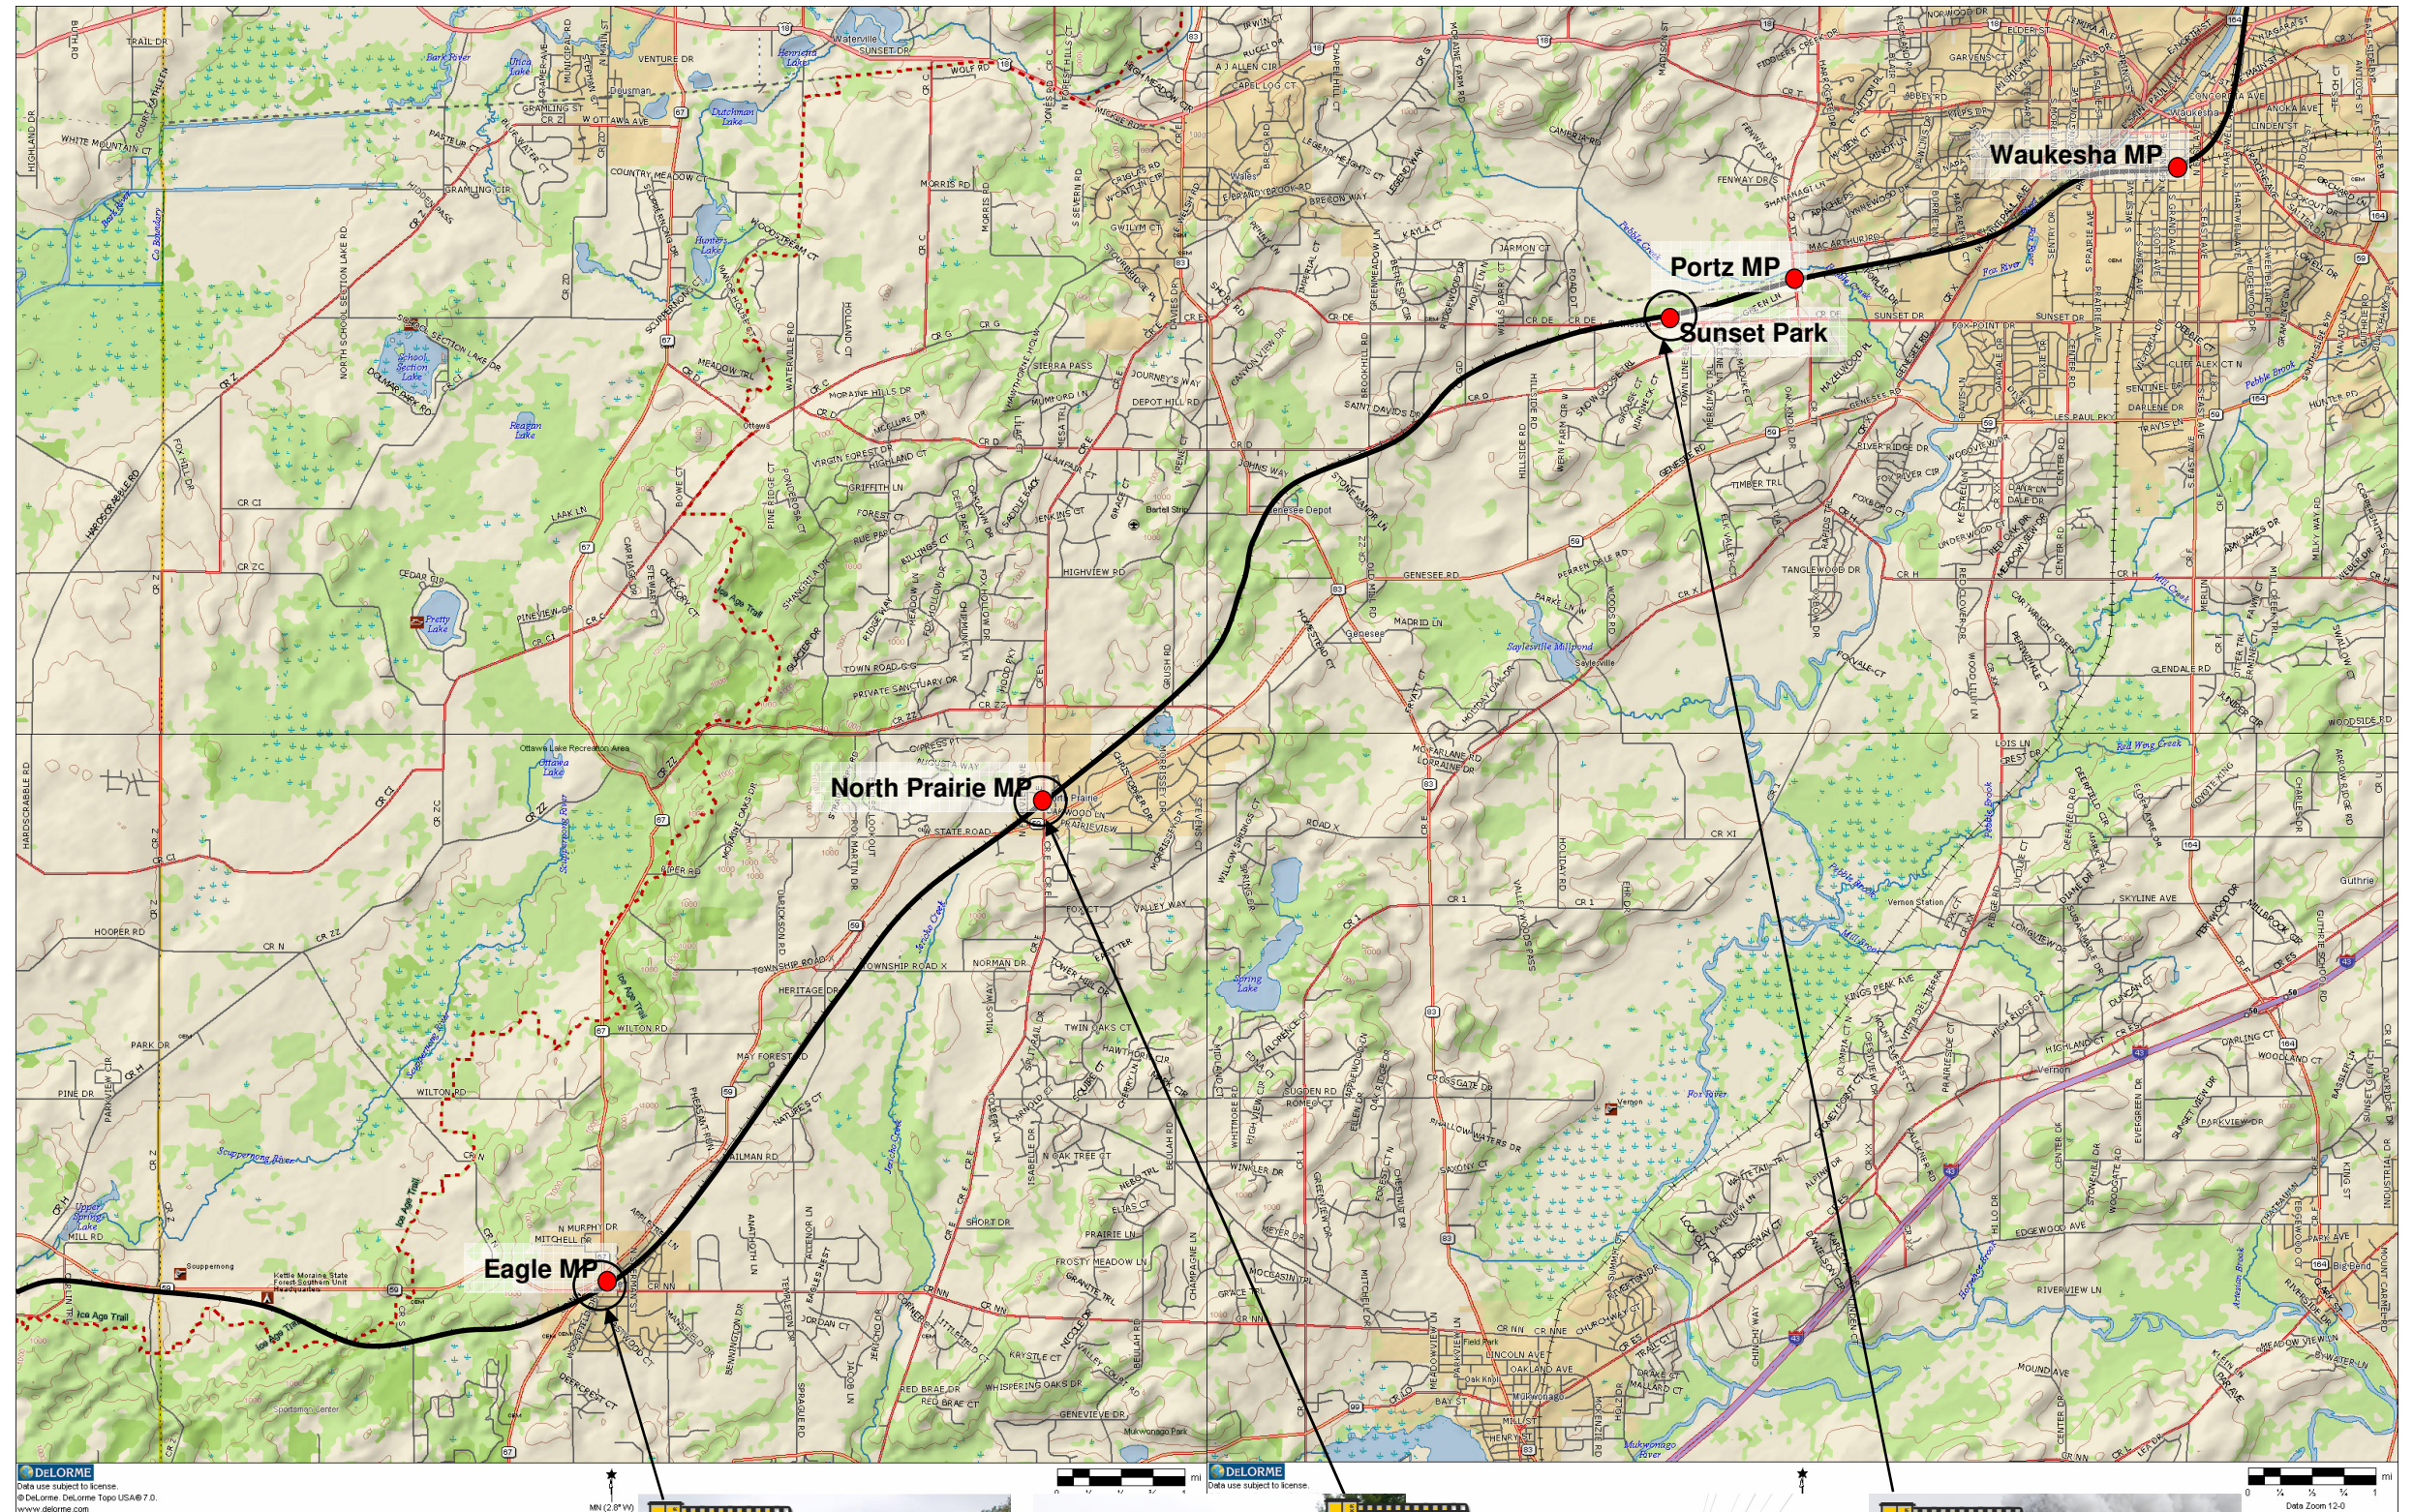

We will gather at Portz Siding at 8:00am on Sunday, November 9, 2008. Portz Siding is on the southwest side of Waukesha, and is reached via County Road TT / Merrill Hill Road.

Our first photo location will probably be the park just west of the siding. From there we'll work our way toward Milton.

We anticipate a water stop in Palmyra and lunch in Whitewater.

The photo special will conclude at Milton Junction. After the last runby, no. 1003 will take coal and water, and proceed south to Janesville with a diesel escort.
